TABLE OF CONTENTS

NUMBER 1, JUNE 1963

FAUTREZ-FIRLEFYN, N. et FAUTREZ, J., Développement anormal du plasme périnucléaire dans l'œuf en segmentation d'*Artemia salina* sous l'effet du β-mercapto-éthanol et du dithiodiglycol 1

KIESSLING, K.-H., The metabolism of growing muscle. II. Oxidation of various substrates by mitochondria and homogenates of developing rat muscle . . . 8

BEST, N. H., MILLS, S., LEACH, K. K., DURHAM, N. N. and LEACH, F. R., Imbalance of nonessential amino acids and cell growth 13

LEVIS, A. G., SPANIO, L. and DE NADAI, A., Radiomimetic effects of a nitrogen mustard on survival, growth, protein and nucleic acid synthesis of mammalian cells *in vitro* 19

BAND, R. N. and MACHEMER, C., Environmental induction of multinucleate *Hartmanella rhysodes* 31

ZIMMERMAN, A. M., Incorporation of ^{3}H-thymidine in the eggs of *Arbacia punctulata*: a pressure study 39

TOCCO, G., ORENGO, A. and SCARANO, E., Ribonucleic acids in the early embryonic development of the sea urchin. I. Quantitative variations and ^{32}P orthophosphate incorporation studies of the RNA of subcellular fractions . . . 52

WEISS, L., Studies on cellular adhesion in tissue-culture. VI. Initial cell contacts and morphogenetic movements 61

CRAWLEY, J. C. W. and HARRIS, H., The fine structure of isolated HeLa cell nuclei 70

BALL, W. D., A quantitative assessment of mouse thymus differentiation . . . 82

OSTROWSKI, K., BARNARD, E. A., STOCKA, Z. and DARZYNKIEWICZ, Z., Autoradiographic methods in enzyme cytochemistry. I. Localisation of acetylcholinesterase activity using a ^{3}H-labeled irreversible inhibitor. 89

BADER, S., MILLER, O. J. and MUKHERJEE, B. B., Observations on chromosome duplication in cultured human leucocytes 100

GIFFORD, G. E., Some effects of anaerobiosis on the growth and metabolism of HeLa cells 113

ITO, Y., ENDO, H., ENOMOTO, H., WAKABAYASHI, K. and TAKAMURA, K., Ossification in tissue culture. II. Chemical development of the femur of chick embryo in various liquid media. 119

HELL, E. A. and CRUICKSHANK, C. N. D., The effect of injury upon the uptake of ^{3}H-thymidine by guinea pig epidermis 128

WHITFIELD, J. F. and RIXON, R. H., Reduction of nuclear damage in X-irradiated rat thymocytes by elevated salt concentrations 140

KANNO, Y. and LOEWENSTEIN, W. R., A study of the nucleus and cell membranes of oocytes with an intra-cellular electrode. 149

PELLEGRINO, C., RICCI, P. D. and TONGIANI, R., A quantitative cytochemical

and physiological study of the rat adrenal cortex in hypertrophy after unilateral adrenalectomy 167
Teplitz, R. and Ohno, S., Postnatal induction of ovogenesis in the rabbit (*Oryctolagus cuniculus*) 183
Grisham, J. W. and Porta, E. A., Ciliated cells in altered murine and human intrahepatic bile ducts 190

PRELIMINARY NOTES

Jackson, J. F., Polyploidy and endoreduplication in human leucocyte cultures treated with β-mercaptoethanol 194
Smetana, K., Steele, W. J. and Busch, H., A nuclear ribonucleoprotein network 198
Rieger, R. and Michaelis, A., On the time period during which chemically induced chromatid breaks are available for interaction 202
Devi, A., The soluble ribonucleic acids and protein synthesis in human senile cataract 205
Stein, O. and Gross, J., Electron microscopic autoradiography of the metabolism of ^{125}I in the thyroid gland 208
Barr, H. J. and Esper, H., Nucleolar size in cells of *Xenopus laevis* in relation to nucleolar competition 211
Dickson, J. A. and Leslie, I., A filter-well technique for studying the metabolism of reaggregating cell populations 214
May, J. W., The distribution of cell-wall label during growth and division of *Salmonella typhimurium* 217
Joneja, M. G. and Stich, H. F., The survival of abnormal cells in the thymus of mice 220
Asahina, E. and Tanno, K., A remarkably rapid increase of frost-resistance in fertilized egg cells of the sea urchin 223
von der Decken, A., The pattern of amino acid incorporation *in vitro* into serum albuminlike protein studied by treatment with carboxypeptidase 226
Truman, D. E. S. and Löw, H., Effects of substrates for oxidative phosphorylation and of respiratory inhibitors on the incorporation of amino acids into protein by isolated beef heart mitochondria 230
Dodson, J. W., On the nature of tissue interactions in embryonic skin 233
Bianchi, N. O. and Bianchi, M. S. A., Sex chromatin in the liver of rat embryos 236

NUMBER 2, August 1963

Tatake, V. G. and Gopal-Ayengar, A. R., Effects of ultrasonic radiation on *Escherichia coli:* spectrophotometric studies 241
Okada, T. S. and Sato, A. G., Soluble antigens in microsomes of adult and embryonic kidneys 251
Bamberger, J. W., Martin, W. E., Stearns, L. W. and Jolley, W. B., Effect of 8-azaguanine on cleavage and nucleic acid metabolism in sea urchin, *Strongylocentrotus purpuratus*, embryos 266

NAGAI, S., Spectrophotometry of yeast cells colored alive with acriflavine and other basic dyes 275
PORTELA, A., PEREZ, J. C., STEWART, P. and HINES, M., Ion effects in X-ray depolarization of muscle membrane 281
PORTELA, A., PEREZ, J. C., STEWART, P. and HINES, M., Irradiation and cesium depolarization of muscle membrane 291
KIT, S., DUBBS, D. R., PIEKARSKI, L. J. and HSU, T. C., Deletion of thymidine kinase activity from L cells resistant to bromodeoxyuridine 297
TRUMAN, D. E. S., Incorporation of amino acids into the proteins of sub-mitochondrial particles 313
POLLOCK, M. E., TREADWELL, P. E. and KENNY, G. E., Mammalian cell cultures contaminated with pleuropneumonia-like organisms. II. Effect of PPLO on cell morphology in established monolayer cultures 321
BENSAM, A., KITAZUME, Y. and YČAS, M., Ribonucleic acid metabolism in the silk gland 329
ZEBE, E. und FALK, H., Elektronenmikroskopische Lokalisation ATP-spaltender Reaktionen in quergestreiften Muskeln 340
SANFORD, K. K., DUPREE, L. T. and COVALESKY, A. B., Biotin, B_{12}, and other vitamin requirements of a strain of mammalian cells grown in chemically defined medium 345
DE VITRY, F., Etude autoradiographique de l'incorporation de ^{3}H-5-méthylcytosine chez *Acetabularia mediterranea* 376
LYTTLETON, J. W., A simple method of isolating ribosomes from *Tetrahymena pyriformis* 385
ZAJICEK, G., BERNSTEIN, N., ROSIN, A. and GROSS, J., Studies on the *in vitro* incorporation of tritiated thymidine into ascites tumor cells 390
KIT, S. and DUBBS, D. R., Biochemistry of vaccinia-infected mouse fibroblasts (strain L–M). IV. ^{3}H-thymidine uptake into DNA of cells exposed to cold shock 397
ROELS, H., The effect of some pituitary hormones on volume and DNA content of cell nuclei of the adrenal cortex in hypophysectomized-castrated rats 407
KROEGER, H., JACOB, J. and SIRLIN, J. L., The movement of nuclear protein from the cytoplasm to the nucleus of salivary cells 416

PRELIMINARY NOTES

UGAZIO, G. and PANI, P., Differential release of bound hydrolases from rat-liver lysosomes treated by a non ionic surface active substance 424
DESCHNER, E. E., A membrane bounded intramitochondrial granule in untreated mouse sigmoid-rectal epithelial cells 428
SHAFFER, B. M., Inhibition by existing aggregations of founder differentiation in the cellular slime mould *Polysphondylium violaceum* 432
OEHLERT, W., KRAMSCH, D. and BECK, V., The degradation of ergastoplasmic structures and its effect on the DNA-synthesis 435
KLÖNE, W., KULEMANN, H., WARD, E. N. and SALK, J. E., Some observations on measles induced giant cell formation 438

GORDON, G. B., MILLER, L. R. and BENSCH, K. G., Fixation of tissue culture cells for ultrastructural cytochemistry 440
GOLDBERG, B., GREEN, H. and TODARO, G. J., Collagen formation *in vitro* by established mammalian cell lines 444
LEVIS, A. G. and MARIN, G., Induction of multipolar spindles by X-radiation in mammalian cells *in vitro* 448
BAKER, P. C., Changes in lipid bodies during gastrulation in the treefrog, *Hyla regilla* 451

NUMBER 3, SEPTEMBER 1963

MOYA, F. J., Inhibition of growth by post-hepatectomy blood serum. Effect on regenerating liver and on tissue culture 457
NILSSON, O. and WIRSÉN, C., The effect of estrogen on the histology of the uterine epithelium of the mouse. IV. Changes in amount of acid phosphatase 470
PRICE, S., The effects of triploidy and metamorphosis on the free amino acids of *Urodele larvae* 475
ROVERSI, G. D. and SILVESTRINI, R., Study on the protein metabolism of the evolutional ovarian follicle. Autoradiographic research with ^{3}H-phenylalanine 484
MORRILL, J. B., Development of centrifuged *Limnaea stagnalis* eggs with giant polar bodies 490
D'AMELIO, V., MUTOLO, V. and PIAZZA, E., A serological study of the cell fractions during the embryonic development of liver in chick 499
EDWARDS, R. G. and VALENTINE, R. C., Cytochemical demonstration of succinic dehydrogenase in intact rabbit spermatozoa 508
PINHEIRO, P., LEBLOND, C. P. and DROZ, B., Synthetic capacity of reticulocytes as shown by radioautography after incubation with labeled precursors of protein or RNA 517
CHEN, P. S., FARINELLA-FERRUZZA, N. and OELHAFEN-GANDOLLA, M., Contents of DNA and RNA in the salivary glands of normal and lethal larvae of the mutant "lethal-meander" (*lme*) of *Drosophila melanogaster* 538
JONES, A. L., An organ culture system for the maintenance of adult guinea pig whole-thickness skin 549
RABOTTI, G. F., Incorporation of DNA into a mouse tumor *in vivo* and *in vitro* 562
CORMACK, D. H. and AMBROSE, E. J., Cytological studies of the entry of enzymes into cells in tissue culture 566
BASERGA, R. and GOLD, R., The uptake of tritiated thymidine by newly transplanted Ehrlich ascites tumor cells 576

PRELIMINARY NOTES

NORDLING, S., PENTTINEN, K. and SAXÉN, E., The effect of individual human sera on the attachment of HeLa cells on glass surface 586
CARLSON, L., CASPERSSON, T., FOLEY, G. E., KUDYNOWSKI, J., LOMAKKA, G., SIMONSSON, E. and SÖRÉN, L., The application of quantitative cytochemical techniques to the study of individual mammalian chromosomes 589

HEMPEL, K., Über eine neue, autoradiographische Methode zum histochemischen Nachweis proteingebundener Sulfhydryl-Gruppen mit tritiiertem N-Phenyl-maleinimid 594
PARTANEN, C. R., The validity of auxin-induced divisions in plants as evidence of endopolyploidy 597
KATO, Y. and HAYASHI, Y., The inductive transformation of the chorionic epithelium into skin derivatives 599
NØRREVANG, A., Helical structures in the nucleus of early oocytes of *Priapulus* 603
ISHIZAKI, H., Nuclear activation by the metamorphosis hormone in the fat body cell of *Phylosamia cynthia ricini* (Lepidoptera) 606
JOHNSON, H. A. and HAMMOND, H. D., The rate of mitochondrial increase in the murine spermatocyte 608
SIRLIN, J. L., TANDLER, C. J. and JACOB, J., The relationship between the nucleolus organizer and nucleolar RNA 611
MARKMAN, B. and RUNNSTRÖM, J., Animal and vegetal halves of sea urchin larvae subjected to temporary treatment with actinomycin C and mitomycin C 615
